Title: Junior Cyber Security Analyst

Location: Chicago, IL

Company: CyberTech Solutions LLC

About the Company: CyberTech Solutions LLC is a leading cybersecurity firm dedicated to safeguarding businesses against cyber threats and vulnerabilities.

Job Description:

We are seeking a passionate and detail-oriented Junior Cyber Security Analyst to join our growing team. As a Junior Cyber Security Analyst, you will play a crucial role in monitoring, detecting, and responding to security incidents, as well as implementing preventive measures to protect our clients' assets.

Responsibilities:

Monitor security events and alerts to identify potential security incidents.
Investigate and analyze security incidents to determine the root cause and impact.
Assist in implementing security controls and measures to mitigate risks and vulnerabilities.
Participate in vulnerability assessments and penetration testing activities.
Collaborate with cross-functional teams to ensure compliance with security policies and standards.
Stay informed about the latest cybersecurity threats, trends, and best practices.

Requirements:

Bachelor's degree in Computer Science, Information Technology, or related field.
Basic understanding of cybersecurity principles and technologies.
Familiarity with common security tools and technologies (e.g., SIEM, IDS/IPS, antivirus).
Strong analytical and problem-solving skills.
Excellent communication and teamwork abilities.
Willingness to learn and adapt to new technologies and concepts.
